To whom it may concern:

This letter is to commend firearms training I received from a John Howard IV NRA firearms Instructor for U.S. Investigations and Protection Agency.

I have over 22 Years in the security industry and the NRA firearms training I received from John Howard was by far the best of any I have received anywhere and I would recommend anyone interested in that type of training or want to acquire a CCW License from Florida be trained by John Howard IV. John Howard was very clear to regarding the differences between the types of firearms training and what can be acquired by attending an NRA Firearms training course. John has also helped me improve my shooting accuracy as well as informed me of new laws regarding firearms in different states. John Howard IV also provided me with an application from the Florida Dept. of Consumer services and licensing and assisted me with its completion. If you have any further questions feel free to call me at ~~708-222-1111~~.

I will be informing my friends and family about this experience, recommending John Howard IV with my highest rating possible.

Sincerely,

Daniel J. Sergott

To whom it may concern:

This letter is to commend firearms training I received from John Howard IV an NRA firearms Instructor for U.S. Investigations and Protection Agency.

I was very new to firearms safety, use, handling, etc. and I wanted to acquire an FOID, State of Illinois firearms training certificate and a Florida CCW License. John Howard IV was very patient and clear to me about what I needed to do. For my Illinois State certification, John Howard IV recommended that I attend an IDPR Regulated Firearms Instructor class, told me the difference between NRA Firearms Training and IDPR training then sent me to the Security Training Center in Chicago. I attended the class in Chicago at the Security Training Center, but failed on the range so I had to return to them when I became good enough to pass, I went to John Howard IV and he was patient enough to help me become more accurate on the range during my NRA Firearms Training and when I went back to take the range test with the Security Training Center, I passed easily and the IDPR Firearms instructor said "John Howard is very good at helping people with accuracy". My NRA Pistol Certification training with John Howard IV provided me with more knowledge. John provided me with an application for a CCW license for Florida and a list of states which my CCW License is valid in if I decided to get one. John Howard was very thorough and patient; answering all questions I had regarding my training and making sure I understood all requirements and laws related to my training. I can be reached at ~~773-962-7331~~ if necessary.

Sincerely,

Gwendolyn Perry

To whom it may concern:

This letter is to commend firearms training I received from a John Howard IV NRA firearms Instructor for U.S. Investigations and Protection Agency.

When I have received firearms training from John Howard IV I felt informed and confident about what was being taught, myself being a skeptic of most things presented to me. John Howard was one of the most thorough, patient and informative instructors I have ever known. His patience is top notch, he allowed me to ask many question before, during, and after my training, Questions regarding Concealed weapons and Firearms License reciprocity, Is the training valid for Illinois issued licenses and permits?, as well as a host of other questions, John answered all of my questions correctly, without being vague and to my satisfaction. John Howard IV is a great firearms instructor and in my opinion and goes an extra mile to insure his students understands laws and regulations. I can be reach by phone at ~~630-598-2848~~ in further information is needed.

Sincerely,

Eric Becker

To whom it may concern:

I am very proud to say that I have received exceptional firearms training from John Howard IV. I have learned a great deal about firearms marksmanship, firearms regulations, laws and firearms safety from the what I would call exemplary NRA Firearms Instructor, I was immediately informed before I started training what I could use my NRA Pistol certification for and was given an application to complete for the Florida Dept. of Agriculture and Consumer Services CCW and was patiently assisted. I was also informed that the NRA Certification can't be used to get an Illinois CCW because they don't exist and I would not be able to use it to apply for an Illinois FCC card. It seems to me John Howard IV really cares about what he teaches and is very thorough in the class room and on the firing range. It was a privilege for me to be his student. I can confidently say I will recommend others to be trained by John Howard IV experience or not. I will gladly answer additional question regarding my exceptional experience just call ~~708-231-1313~~
~~708-231-1313~~.

Sincerely,
