1) Very Impressive how so much emphasis
was put on safety, and the use of
staying calm ~~and~~ in all situations.

2) I also was Impressive on how they taught
us to try & avoid deadly force if at all
possible, but if you are forced to do so, please
call 911 for emergency medical care

3) The entire class was well worth the time & money
we also was able to ask questions, which was
all explained in detail.
